TESTIMONIALS

“The space delivers everything you see in the pics and more. Full of charm, character, style and comfort. Our photo shoot went better than I expected. Looking forward to using the space again in the near future!”

JUSTIN J.

"Incredible place! Such a beautiful hidden gem. Rented the place for a photo session and my clients and I are all very happy."

JAKUB R.

"Great place, great location and staff are very attentive. I would recommend this place to anyone."

RONALD V.

“We filmed a musical performance with an eight-piece band with audience surrounding them. The space has loads of character with the right combination of default flair and customization. There were tons of large plants, lamps, and vintage ornaments to decorate our set. Everyone literally said "wow" when they entered the space. I'm sure when our video is made public, people will ask, "Where did you film this?”

COLIN M.

“Couldn’t have picked a better location. The space was great. We were able to capture many scenes with natural sun light, and also dark scenes. Being able to use a roof was a plus as well. Overall a great experience.”

FRANK V.

This place was a dream. Just like the pictures. So many amazing nooks and crannies that created editorial magic. Everything was beyond! I would book again!”
